Note A:

The percentage of funds retained by charity clients is based on the most current financial information provided by the Commercial Fundraisers listed above. These percentages reflect the overall amount of funds received or retained by the client charities after all fundraising costs have been deducted from the total value of contributions received on behalf of the charity by the Commercial Fundraiser or by the charity client. The variance between Total Contributions and Net to Charity Client(s) may include fundraising expenses other than fees paid to a Commercial Fundraiser. It should also be noted that these figures do not necessarily indicate the specific percentage of funds allocated by a given charity to its charitable purpose. In some instances, charities may be using a combination of direct fundraising and a Commercial Fundraiser; others may be using several different Commercial Fundraisers, whose yield to the charity may vary.

Note B:

The charity clients listed are based on registration information submitted by the Commercial Fundraiser and/or the Charitable Organization. In some instances, the Commercial Fundraiser and Charitable Organization may no longer have a contractual relationship to conduct fundraising activities in Washington State.

Note C:

The financial information provided by the Commercial Fundraisers listed above is aggregate and may reflect activities in Washington State, nationally, or a combination thereof.

Note D: ☐

Financial information is not available for some of the Commercial Fundraisers listed. If the financial ☐ information displayed is blank, contains zeros, or is outdated, it is possible that the organization is newly ☐ registered, did not solicit contributions in Washington State during its most recent fiscal/accounting ☐ year, or has re-registered after a period of inactivity.
